

**Remarks:**

Claims 1, 4, 5, 8 and 9 have been amended. No claims have been added or cancelled herein. Therefore, claims 1-9 are currently pending in the application. Reconsideration of the outstanding rejections is respectfully requested for the reasons that follow.

**Claim rejections – 35 U.S.C. § 112**

Claims 8 and 9 were rejected under 35 U.S.C. § 112, first paragraph, for not being enabled for use of sodium or potassium phosphate. Applicants submit that claims 8 and 9 as amended obviate the rejection and, therefore, it is respectfully requested that the rejection be withdrawn.

Claims 1-9 were rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. In particular, the Office Action stated the lack of definition of Formula I in claims 4 and 8, a typographical error of triethylamine in claim 8, and missing “and” before “the hydrates” in claim 1 as the grounds for indefiniteness. Applicants submit claims 1-9 as amended obviate the rejection and, therefore, it is respectfully requested that the rejection be withdrawn.

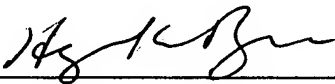

**Objection to Specification**

The abstract was objected to as being too vague. Applicants submit that the attached substitute abstract with the structure for Formula I obviates the objection, and therefore, it is respectfully requested that the objection be withdrawn.
